

An exporter and marketer of Queensland's raw sugar and operator of six bulk terminals down the coast of Queensland, Queensland Sugar is looking to engage an experienced asset management professional in the position of Asset Coordinator.

With your proven experience in asset management processes and having worked in an industrial environment, you will be responsible for the effective management, control and optimisation of the asset life cycle and maintenance plans across the business. Your proven experience will also be able to demonstrate your ability to work with employees through engagement and support to build and sustain a culture that continually shares QSL's company values.

To be successful in this autonomous role you will also have a sound understanding of MEX and exposure to utilising a WMS. You will be computer literate and proficient in MS Office, along with effective written and verbal communication skills and the ability to liaise with a wide range of key stakeholder groups. Technical trade qualification or a tertiary qualification will be an advantage.

Your key responsibilities in this role are:

- Continuously demonstrate a personal commitment to QSL's Environment, Health and Safety Policies and Standards and believe "Safety Starts with Me"
- Use humanistic leadership and people focused interactions to create engagement and action
- Conduct asset optimisation processes and amend maintenance KPI's accordingly
- Facilitate the compiling of the annual OPEX budgets across all six terminals
- Align MEX maintenance plans with Rylson8 software
- Review Preventative Maintenance schedule dates, costs, tasks and resources
- Liaise with QSL engineering to include capital & secondary maintenance projects into R8
- Regenerate OPEX budgets and review results to check for anomalies and compliance
- Conduct annual OPEX reviews with each terminal & update asset life cycle plans
- Ensure 15 year OPEX and CAPEX budgets are current & captured in R8 & MEX
- Willing to travel between BST's and liaise with terminal staff on asset management matters
- Prepare all terminals for maintenance audits and liaise with asset management software vendors on developments
- Undertake other functions consistent with skills and competencies as required

This position will be based in Brisbane with the expectation of regular travel to our bulk terminals where you will work alongside a team of Project Engineers, Terminal Management and Terminal Operators. Your experience in building relationships with the ability to engage and influence will be essential to your success in this role.

If you believe you are the person we're looking for, please send your 1 page cover letter and your resume to recruit@qsl.com.au

Applications close Friday 15 February 2019
