QSL Harvest Pool vs Wilmar Production Risk Pool

HIGHEST TOTAL RETURN: QSL HARVEST POOL

\$6/tonne more than Wilmar equivalent over 3 seasons

HIGHEST AVERAGE RETURN: QSL HARVEST POOL

\$2/tonne per season more than Wilmar equivalent over 3 seasons

Wilmar results include their default finance charge and have been sourced from Wilmar Pool Performance 2017-2019 Seasons document published 30.4.20 and additional Wilmar reporting material for the 2019 Season. Results have been rounded to the nearest whole-dollar amount and represented inclusive of QSL's Shared Pool, which would have applied to all pools running through the QSL platform, and the Loyalty Bonus, which 95% of QSL's contracted growers in Wilmar milling districts were eligible for in the 2017 Season and 90% were eligible for in the 2018 and 2019 Seasons. Please read the full disclaimer at the end of this document.

QSL – WORKING FOR YOU

QSL – THE BENEFITS ADD UP

- > No margins or mark-ups
- > Not-for-profit & income-tax-exempt status minimises costs
- > We target the best returns available rather than selling to our own refineries.
- > The only marketer shipping through every Qld sugar terminal.
- > Upfront & transparent, with regular reporting and detailed product information.
- > Over \$8 million paid to growers in Loyalty Bonuses during the 2017, 2018 and 2019 Seasons to date.

PRICING OPTIONS TO SUIT YOUR NEEDS

Don't have time to follow the sugar market?

Choose a **QSL-Managed Pool** and we'll take care of your pricing so you can focus elsewhere.

Want to price it all yourself?

Price up to **98%** of your GEI Sugar, including your Harvest Pool allocation, by using our **Grower-Managed** pricing options. That's everything except your share of our highly lucrative US Quota Pool.

Price when it suits you

Lock in a price **up to 3 seasons in advance** or leave up to half your tonnage to price **after the harvest** – our flexible product options mean the choice is yours.

WE'VE GOT YOUR BACK

Worried about delivering your estimated sugar this season?

QSL growers with committed pricing have **multiple options** to address in-season production reductions, including:

- > Reallocating your Harvest Pool tonnage to meet your committed sugar pricing
- > Shifting tonnage between ABNs
- > Rolling pricing forward to the next season
- > Unwinding pricing

So should you come up short, you can rest assured that we will work with you to find the lowest-cost option available within the current market for your particular pricing position.
